Google Workspace AUDIT

SecureWon offers a comprehensive security review of your Google Workspace. The process has been designed with Google for Education and Chrome Enterprise Solutions Engineers and covers all relevant security configurations in your Workspace.

We will conduct the review with a Google Professional Cloud Engineer with at least ten years of experience managing multiple Google domains.

We break down the audit report into nine sections:

1. Adoption, Storage, & Retention
2. Workspace Structure
3. Administrative Accounts/ Privileges
4. Identify, Authentication, & Access Management
5. Third-Party Integrations & APIs
6. Workspace Apps & Additional Services
7. Device Management & Enrollment
8. Reports, Alerts, & Investigations
9. Compliance & Security Standards

Contact us today to learn more!

Your report will answer questions like:

Are administrative and user accounts with varying access controls regularly reviewed and maintained?

Is individual/shared drive storage usage monitored and aligned with organizational needs and industry best practices?

Does your Organizational Unit (OU) structure support scalability and security?

Are group settings configured to ensure appropriate access and security?

Is Your Google Workspace tenant Built for Integrity and Accountability?

Have third-party permissions and APIs been audited for potential data access risks?

Are device settings and enrollment policies in line with organizational security standards and industry best practices?

Innovative IT Solutions for a Smarter, More Secure Future

Experience the difference with SecureWon. We combine cyber and physical security with your overall IT strategy to evalute your needs, provide an implementation plan and manage the improvements, creating the most secure work environment possible.

People Talk. We Listen.

Our SecureWon team asked us the tough questions that needed to be asked to develop a solution that now keeps our network secure, compliant and continually monitored for threats. We now have the peace of mind that we are doing everything we can to protect our organization from the latest cybersecurity threats, and can now spend more time focusing on the future of our business.

CFO
National Financial Firm - New York

SecureWon is the most reliable MSP I have worked with. They are always there to solve all your issues any time of day. SecureWon makes you feel like you are their only client. They are always there and ready to assist and mobilize for emergencies that pop up at the last minute. SecureWon's security audits are thorough, and they work with you continuously to ensure you are physically and virtually safe from all threats. There has yet to be a situation where their team cannot help. Thank you!
